

# Emporia State University

It was an awesome experience joining an exchange program. During the fall 2008 in Emporia State University, I was the only Thai student there. This gave me an opportunity to gain knowledge of the new culture and know many new friends from different part of the world, for examples, US, Europe, China, Korea, and etc.

Emporia is the county seat of Lyon County, Kansas, United States. It is a peaceful place full of many helpful and friendly people. In my opinion, Emporia is a rural small city where you can enjoy your overseas experience life in a different way compare to the big city.

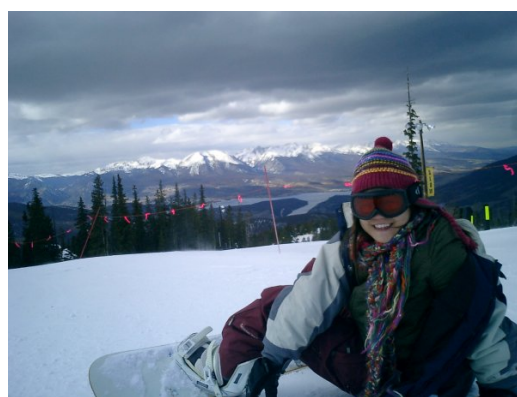

During my free time, this is the perfect place for people who enjoy spending their time in a beautiful public park or green nature. In

some weekends, international professors will arrange a trip to amusement park, shopping in the city, going to church and get to know local people.

Professors are very helpful and taking good care of exchange students. Therefore, all exchange students can learn and enjoy their study time in the university very much.

Many courses are available for students to choose. There are over 180 majors, minors, and programs of study. In addition, there are many facilities which students can use and explore on their learning. For example, the library, internet wireless, recreational services, and etc.

If anyone who is seeking for the place like home where you can meet

with warm and welcoming people or to study in the city where it is peaceful. To enjoy a beautiful nature among many friendly local people, Emporia State University could be a choice for you.
